

Sanvedya Neware

Data Science — Machine Learning — Backend Development
sanvedyaneware11@gmail.com — LinkedIn — GitHub — Portfolio

Education

Bachelor of Science in Data Science (Currently Pursuing)

Indian Institute of Technology Madras (IIT Madras – Online BS Degree)

Bachelor of Technology in Computer Science and Engineering (Currently Pursuing)

Government College of Engineering, Kolhapur

Technical Skills

Programming Languages: Python, Java, JavaScript, C, C++ (Basic)

Problem Solving & Competitive Programming: Solved **250+ DSA problems** on LeetCode; ranked in **Top 28.47% worldwide** in Weekly & Biweekly contests

Data Science & Machine Learning: NumPy, Pandas, Scikit-learn, SciPy, Data Cleaning, Feature Engineering, EDA, Model Training, Evaluation, Hyperparameter Tuning

Deep Learning & AI: Neural Networks, Backpropagation, TensorFlow/Keras (Basics), PyTorch, CNNs, RNNs, Bidirectional RNNs, GANs, Denoising Diffusion Probabilistic Models (DDPMs), Optimization Techniques

Web Development & Backend: Flask, HTML, CSS, Jinja2 Templates, Vue.js, SQLAlchemy

Databases, Cloud & Tools: MySQL, SQLite, Google Cloud Platform (GCP), Microsoft Azure, Git, GitHub, Jupyter Notebook, VS Code, Google Colab

Operating Systems: Linux (Ubuntu, CentOS), Linux System Administration (Basics)

Projects

Smart Parking Management System

Flask, Jinja2, HTML, CSS

- Designed and developed a full-stack web application to manage vehicle entry, exit, and parking slot availability.
- Implemented backend logic using Flask and dynamic UI rendering using Jinja2 templates.
- Automated real-time occupancy tracking, eliminating manual parking management and improving operational efficiency.

Heart Disease Prediction System

Python, Scikit-learn, Streamlit

- Built an end-to-end machine learning pipeline to predict heart disease using clinical and demographic features.
- Performed data preprocessing, EDA, and visualization using Pandas, NumPy, Matplotlib, and Seaborn.
- Trained and evaluated ML models using Scikit-learn and deployed the final model as an interactive Streamlit web application.

Awards & Achievements

- Ranked in the **Top 28.47% worldwide** in LeetCode Weekly & Biweekly Contests (2024–2025).
- Secured **Top Grades** in Statistics, Mathematics, Python Programming, Data Structures, Machine Learning, Java Programming, and Generative AI – IIT Madras.

Certifications

- Introduction to Deep Learning & Neural Networks with Keras – IBM (2026)
- Foundational Level in Programming and Data Science – IIT Madras (2024)
- Complete Linux Training – Udemy (2024)
- Applied Vibe Coding, GCP, GitHub, and ML Workshops – IIT Madras (2025)
